

ZiiZii iOS 2.5.1

Setup and usage tips for customers of L.J. Zucca

Setup

Enter the URL exactly as shown, including the “http://” part.

Server URL	http://ljzucca.ziizii.net/JellyLJZucca
Username	Enter the email address you provided to LJ Zucca
Password	Enter the password you chose when you received the email from adminmail@novexsoftware.com to sign up for online ordering

Updating

Update daily for up-to-date pricing and item information.

Customer selection

Tap Choose Customer on the main screen.

Tap on your store’s name and account number to view your catalog.

Building an order

Tap Name or PO to add these to your order for easy identification. LJ Zucca DOES NOT see these fields. They are for customer use ONLY.

Tap on an item to view QOH (Quantity On Hand) aka how many are in stock.

Swipe left on items to remove them from the current order.

To view all of your saved and sent orders at any time, tap the blue ZiiZii arrow in the top-left corner.

Review all items and quantities before sending.

Speed Entry

When you type a SKU and press Enter, if multiple units are available you will have to choose one. Press “Cas” for Case or “Bro” for Broken, and enter the quantity desired. Other buttons may be greyed out and disabled.

To return to the main order screen, tap the blue Order arrow in the top-left corner.
